

To support and strengthen the professional capacity of staff as we nurture the development of a collaborative culture focused on professional learning and teaching.

To create an inclusive and equitable learning culture across the school.

To use effective approaches in data analysis to inform action on improving teaching and learning and raise attainment.

To provide a curriculum which offers a range of courses, qualifications and opportunities to improve young people's transition into positive, sustainable post-school destinations.

Continuing to develop a positive and inclusive school culture based on strong relationships and a solid understanding of pupils' individual circumstances and needs.

To develop a whole school approach to supporting the mental health and wellbeing of pupils, staff and parents.

To provide targeted support for vulnerable pupils and families.

To ensure a consistency of rigour in self-evaluation approaches which will support continuous improvement.
